

RYAN DENNIS

Lansing, KS • ryandenn05@gmail.com • (913) 702-4723 • [linkedin.com/in/ryandenn05](https://www.linkedin.com/in/ryandenn05) • ryandenn05.github.io (website)

EDUCATION

Texas A&M University, College Station, TX
B.S. in Mechanical Engineering | Minors: Physics & Mathematics

Expected Graduation: May 2028
GPA: 3.76

- **Honors:** Engineering Honors, Dean's Honor Roll
- **Study Abroad:** Engineering Economic Analysis — Thessaloniki & Athens, Greece
 - Now serve as Global Ambassador recruiting future participants and interacting with international students

PROP & FABRICATION EXPERIENCE

RAD Builds™ — Founder & Operator

Aug 2022 – Present

- **YouTube Channel** (Official YouTube Partner) • www.youtube.com/@radbuilds3000 (2,000+ subscribers)
 - Write, film, and edit revenue-generating instructional build tutorials — independently handling lighting, camera, and sound — with full process documentation and downloadable templates for engaged audiences
 - Provide build guidance to international viewers across language barriers — using translation tools and contextual interpretation to accurately diagnose and resolve technical questions from Turkey, India, Germany, and beyond
 - *Standout Videos:* Spider-Man Mask (60,000+ views), World Cup Trophy (30,000+ views)
- **Custom Prop Commissioning**
 - Built movie and TV-accurate prop replicas and custom pieces for clients using foam, resin, PVC, wood, and CAD
 - Managed all client communication, material sourcing, and production timelines end-to-end for simultaneous orders
 - *Notable Builds:* ODM Gear, Thor's Stormbreaker, Darth Vader's lower mask, Batman's Bat-a-rang

Sep 2022 – July 2024

EcoFil — Additive Manufacturing Recycling System, College Station, TX

Jan 2025 – May 2026

Treasurer & Public Relations Officer | Presentation Lead • Aggies Create

- Collaborated with a five-person team designing a closed-loop 3-phase system to convert 3D printing waste into reusable filament utilizing material shredding, polymer dehydration, and thermal re-extrusion
- Developed 50+ SolidWorks CAD models; contributed to Phase 1 mechanical assembly and Phase 2 plasma cutting and welding of a custom metal convection oven; 15+ hrs/week fabrication
- Led team presentation to a 3rd-place finish at Aggies Create's Innovation Expo

Mechanical Ping-Pong Toy, College Station, TX

Sep 2025 – Dec 2025

- Designed and manufactured a crank-driven mechanical toy using linkages to convert rotational into linear motion
- Performed kinematic analysis, gear ratio optimization, and tolerance refinement; laser cutting and 3D printing

OTHER EXPERIENCE

FIFA World Cup Parking — Mid-Con Management, Kansas City, MO

May 2026 – Jul 2026

- Assisted international visitors for KC FIFA Fan Fest (from over 180 countries, including Argentina, Algeria, Germany)

Military Housing Internship — Frontier Heritage Communities, Ft. Leavenworth, KS

May 2025 – Jul 2025

- Supported HVAC and plumbing maintenance teams across 200+ military residences; operated forklift and company vehicles; maintained safety protocols in active job-site environments across multiple skilled trades teams

ENGINEERING PROJECTS

Ivanpah CSP Plant Analysis, College Station, TX

May 2026

- Modeled the Rankine cycle of the Ivanpah Concentrated Solar Power plant using Python and thermodynamic steam tables; produced T-s diagrams and parametric efficiency plots; improved cycle efficiency from 12.8% to 43%

Mars Rover Simulation, College Station, TX

Jan 2026 – May 2026

- Built a Python rover simulation engine from scratch: dynamics ODE, motor speed, mechanical power, battery energy consumption, and full trajectory simulation — solely responsible for 7 of 9 Phase 2 deliverables

LEADERSHIP & ACTIVITIES

ASME (A&M Chapter): Technical Projects Officer; design projects and select teams (notable project: 8ft wooden trebuchet)

Aggies Create: EcoFil Treasurer & Public Relations Officer; **Spirit Award recipient (100+ member organization)**

Sports for Kids: Fundraising Executive (2026-27); lead fundraising events, member recruitment & merchandise

TECHNICAL SKILLS

Software: Python, HTML coding, MATLAB, SolidWorks, Onshape, Java, Design Space, Microsoft Office Suite

Fabrication: Plasma Cutter, Welding, Lathe, Band Saw, Miter Saw, Soldering, 3D Printing, Laser Cutting, Dremel, Fiberglass

Engineering: CAD Modeling, Additive Manufacturing, ODE/Numerical Modeling, System Integration, Technical Writing
